Thank you for being part of the Growing Up Today Study II!

We appreciate your time and commitment in helping us understand how American young people live in today’s world. Without your participation, we would not be able to study activity levels, eating habits, sunbathing, acne, etc. The information you give us will help future generations of American youth.

We have approximately 10,000 participants throughout the United States in GUTS II.

There are no right or wrong answers. You do not have to answer any questions you don’t want to.

Everything you tell us is confidential and private. (We do not tell anyone your answers, and the information is only used for research.)

If you have any questions, please email us at guts2@channing.harvard.edu or call Helaine Rockett at 617-525-2279 anytime between 9 am and 4 pm Eastern Time.

Thanks!

Instructions

There are two ways to complete this survey.

Complete the questionnaire online:

- Go to www.guts2.org
- Enter your ID# (printed on top left corner of page 1) and your date of birth to enter our secure server. At the end of the survey make sure to hit the “Submit” button.

OR complete the paper questionnaire:

- Please use No. 2 pencil and fill in response circles completely as shown below.
- Tear off the cover letter (to preserve your confidentiality) and return the questionnaire in the enclosed postage paid envelope.
- Please make any necessary changes to your name and address on this letter and return it to us.

As always, the answers you give us will remain strictly confidential.

EXAMPLE 1:

Write your weight in the boxes and fill in the circle below the number at the top of each column.

Please fill in the circle this way:

✓ X ◯

Note: It is important that you write in your weight and fill in the circles. That way we can check that the correct circles have been filled in.

Federal regulations require us to include the following information:

There are no direct benefits to you from participation in this study. The risk of breach of confidentiality associated with participation in this study is very small. Your choice to participate in this study is completely voluntary, and you may decline or withdraw at any time without penalty. Although complete information is important to the study, you may skip any question you do not wish to answer. You will not receive monetary compensation for participating. If you have any questions regarding your rights as a research participant, you are encouraged to call a representative of the Human Subjects Committee at the Brigham and Women’s Hospital (617-424-4100).

EXAMPLE 2:

Think about your usual snacks. How often do you eat each type of food?

For example, if you eat poptarts rarely (about 6 per year) then your answer should look like this:

Poptarts (1)

Never/less than 1 per month
1–3 per month
1–6 per week
1 or more per day

Questions and Comments

We are always interested in what you think.

There are several ways to contact us.

1 Include any ideas, comments, or suggestions with your survey.
2 Email us at: guts2@channing.harvard.edu
3 Call Helaine Rockett at (617)525-2279 anytime between 9 am and 4 pm Eastern Time.
1. a) Is this your correct Date of Birth
   (Month/Day/Year):
   ◯ Yes
   ◯ No  ► If No, please write your date of birth below:

   MONTH / DAY / YEAR

   b) Has your address changed? Make corrections on the cover page and return with the questionnaire.
   Is this your  permanent or  temporary address? Good until: / /

   c) Please tell us your email address. We will not release your email address to anyone!

2. How tall are you?
   YOUR HEIGHT WITHOUT SHOES

   Measure your height in feet and inches. This is tricky to do by yourself so we suggest asking someone to help. Some hints to get the correct height:
   • Stand up straight against a wall with your feet flat on the floor without shoes or hats.
   • Measure from your feet to the top of your head (not the top of your hair).

3. How much do you weigh?
   YOUR WEIGHT WITHOUT SHOES

   Weigh yourself without your shoes or heavy clothing. If you don’t have a scale at home, try to find one at school or a friend’s house that you can use.
**ACTIVITY**

It is very important you tell us about yourself honestly.

Please read the following example before answering the activity questions.

**EXAMPLE:**
If you were on a swim team during the winter that practiced 4 hours a week and had one meet each week and during the summer you swim with friends once a week, then your answer would look like this . . .
